concerns, post news and updates, and spread moral. This site requires a user name and password, so all material is kept confidential. Future uses could and may be streaming video feed from School board meetings, athletic events, plays, and band/chorus performances. This website will also be used to help raise money for the Booster Club. Steve requests parent HELP to keep the website up to date. Steve will also teach a course to students either as extra credit or as a extra-curricular activity. This course will teach the students how to upkeep the website and use the video equipment. If the school does not have space for this program, he may be able to use the building across from the school.
